

SETTING NEW STANDARDS: THE COMPACT HYMER ML-T 570

- Perfect for adventurers: Hymer will be presenting the new, compact Hymer ML-T 570 layout at CMT 2024.
- Redesigned furniture and clever space solutions get the most out of the semi-integrated motorhome, which is only 6.74 metres long.
- On top of that, Hymer is also taking the attractive ML-T 570 Xperience special edition to the trade fair.

Bad Waldsee, 12. 01. 2024 – Whether it’s an extended adventure holiday or a spontaneous weekend getaway, the new Hymer ML-T 570 not only boasts a wide variety of new interior designs, convenient functions, and smart self-sufficiency features, but is also the perfect choice for anyone who wants to experience epic adventures in a compact vehicle thanks to its combination of manoeuvrability and clever use of space.

Only 24 centimetres separate the new Hymer ML-T 570 from its “big brother”, the ML-T 580. But anyone on board will immediately notice the astonishing effect of these smaller dimensions when driving and manoeuvring the motorhome. This is because the more compact external and internal dimensions make the vehicle even more manoeuvrable and easy to handle.

However, the shorter length doesn't mean that there's any need to compromise on all the mod cons. When it comes to features and vehicle performance, the Hymer ML-T 570 is in no way inferior to the larger 580 version.

Redesigned storage areas mean that every inch of the motorhome is utilised to the full. There is plenty of room inside the vehicle for personal belongings and equipment. Thanks to clever design choices, drivers have everything they need within easy reach, without making the interior feeling cluttered.

Customers can choose between two new premium style collections for the updated interior design. In the case of the "Velvet Ash" style collection, a dark wood has been used for the finish. Paired with the light wall coverings, it creates a warm and welcoming atmosphere. The "Native Bamboo" style collection features stylish bamboo accents. A new seating area design and premium panels with multifunctional rails on the windows and doors all contribute to the cosy atmosphere on board. Improved ergonomics now ensure an even better sleeping experience in the Hymer ML-T 570. The beds are 190 cm and 186 cm long respectively, a further plus in terms of sleeping comfort. This means that the bed on the driver's side is 7 cm longer than in the previous models.

The interior is complemented by a new lighting concept featuring ambient lighting – the light temperature can be individually adjusted – as well as several reading lights, which can be attached to the multifunctional rails. On the outside, the new model also boasts dynamic standard decals, an illuminated awning as well as a black roof rack and a ladder.

Clever features for self-sufficient travel, such as the new Smart Battery System 2.0, smart control of the components in the living area using the Hymer Connect App as well as optional extras, such as a water filter or two 95 W solar panels, make this motorhome a pioneer where innovation is concerned. This means that there is nothing to stand in the way of intuitive and comfortable travel, while also making life easier for first-time campers.

ML-T 570 Xperience special edition model

At CMT 2024, Hymer is also presenting the ML-T 570 Xperience special edition, which is attractive in terms of design, weight and price. With special edition decals, exclusive 16" matt black Borbet rims, a black awning and many other highlights, the vehicle is truly eye-catching. Combined with the compact dimensions, the rear-wheel drive ensures maximum manoeuvrability – all while remaining lightweight. The package is rounded off by other features, including a 93-litre fuel tank, the DISTRONIC PLUS active distance assistant, MBUX with navigation and reversing camera or seating areas and a sleeping system that have been designed for comfort.

All versions of the new Hymer ML-T 570 are available from dealers now. The special edition is only available with rear-wheel drive.

**About the Hymer GmbH & Co. KG**

Since its foundation in 1957, Hymer has been a household name in motorhomes and caravans “made in Germany”.
